*Begonia Rex Dibs™ boast high vigor and quick crops times compared to all other Begonia Rex lines. This aggression proves itself in garden performance. Rex begonias are rhizomatous plants that grow from a shallow and knobby rhizome. As such, they do best in large, relatively shallow pots where the rhizome has room to spread. As long as there is still growing room in the pot, the begonia should be considered happily potted.*

Regarded by some as the bluest blue fescue, this plant forms compact, cascading mounds of foot-tall, intensely blue, narrow leaves that are attractive in all seasons. Blooms are generally secondary to the foliage, but this cultivar blooms more heavily than most, with spikelets in summer. This cultivar is long-lived and very hardy. Grow in groups in a border or rock garden, or as a groundcover.

*Ajuga Princess Leia owes her popularity to the deep purple flowers and uniquely patterned leaves and bees are as big a fan of this heat tolerant Ajuga! She is the ideal ground cover to add a splash of color to shady corners (though she loves a spot in full sun just as much!). An incredibly fast grower and her green and white variegated foliage is crowned with deep purple flowers in spring. She has a low, compact habit which makes her perfectly suited for pots and containers on a patio or balcony as well.*

4" SELECT	4" Begonia Rise Up Over Easy	NEW for 2023							
4" SELECT	4" Begonia Rise Up Sansibel Peach	NEW for 2023							
<p><i>The Shadow King series is a rhizomatous — storing water within their stalks — making them ideal for the negligent consumer. The predictable wet/dry cycle from a homeowner is quite acceptable to this versatile series. A shade plant that will thrive in the front porch container as well as the corner of a living room or as a festive table top decoration. Their strong basal branching keeps the overall height down, while pushing a well-rounded habit.</i></p>

*South Pacific is a hybrid dwarf Canna series from seed so it is not prone to diseases transmitted in rhizome production. Thriving in hot and humid conditions, it produces an abundance of showy 4-inch flowers all season on heavily branching plants. Beautiful in garden borders, containers, pots and well suited for shallow areas of ponds and other water features. South Pacific Scarlet and South Pacific Orange are AAS award winners*

*10-18" W x 26-32" H, Annual except in USDA zones 7-10 (perennial)*

*These petunias are vigorous, slightly mounded habits that grow 2-3 feet in the garden or trail over pots, some up to 4 feet. An incredible landscape item and outstanding in large containers as "fillers and spillers", they will work either in the front or middle of the bed. They have medium-sized to large flowers.*

4" SELECT	4" Petunia Color Rush Blue	NEW for 2023							
4" SELECT	4" Petunia Color Rush Pink	NEW for 2023							
4" SELECT	4" Petunia Color Rush Pink Star	NEW for 2023

4" SELECT	4" Petunia SuperCal Premium Maple Red	NEW for 2023							
4" SELECT	4" Petunia Supercal Premium Sunset Orange								
4" SELECT	4" Petunia Supercal Premium Sunray Pink								

*Fast-growing and free blooming all season in beds or containers without cutting back and tolerate both heat and cooler conditions. These grow a little more mounded than original Wave, a more controlled habit. They're perfect as stand alones in the garden, en masse, in mixed planters and baskets. Best of all, these all-season salesmakers deliver customer-pleasing performance all Summer.*

4" HERB	4" Bulbine Medicus									
4" HERB	4" Burnet Salad									
<p><i>The dark green, glossy leafed, and beautiful columnar habit of basil 'Emerald Tower' is ideal for any garden. Traditional Genovese flavor is perfect for eating fresh in caprese salad or chopped fresh in recipes. Plus, it flowers late in the season, for huge harvests of leaves throughout Summer. Well-branched variety makes a beautiful, towering plant with huge harvest potential that stays tidy for many uses, including in-ground, container gardens and hydroponics. Flowers up to 10 to 12 weeks later than standard basil.</i></p>

Squash Italian Rampicante

# Herb Description/Information

<b>Anise - full sun/part shade</b>	
<i>Hyssop</i>	Very aromatic, with a sweet licorice-mint flavor. Leaves and flowers can be used for salads, teas and garnishes.
<b>Artemisia - full sun</b>	
<i>Powis Castle</i>	Aromatic herb with a mild camphor fragrance. Low-growing, mounding evergreen perennial with silver-grey foliage.
<i>French Tarragon</i>	A perennial herb cultivated for the use of its aromatic leaves in seasoning, salads, etc. French cuisine staple.
<b>Arugula - full sun</b>	
<i>Arugula</i>	Arugula is an aromatic salad green. It is also known as rocket, roquette, rugula and rucola. Popular in Italian cuisine.
<b>Basil - full sun/part shade</b>	
<i>African Blue</i>	A perennial herb grows to 18-24 inches(45-60 cm) in full sun with burgundy veined leaves that are very fragrant.
<i>Ayurvedic Holy Red &amp; Green</i>	The true sacred basil from India with clove-scented leaves used in salads and other cold dishes. Plays a role in ayurvedic medicine.
<i>Ayurvedic Sacred</i>	Similar to the above, with solid green leaves that are very cold tolerant.
<i>Blue Spice</i>	Hints of vanilla combine with a smidge of spice & fruit. Perfect in fruit salads, dressings, & marinades.
<i>Dark Opal</i>	Smooth, 2" leaves that range in color from light green to purple. Can be used for cooking, garnish and cut flowers.
<i>Dolce Vita Blend</i>	A unique blend of basil designed to provide you with exquisite culinary delights for your kitchen.
<i>Everleaf Emerald Towers</i>	Fast-growing, tidy, well-branched columnar plant with delicious, robust flavor. Continuous harvests of fresh leaves without blooms.
<i>Everleaf Thai Towers</i>	Fragrant, columnar plant with abundant licorice-flavored leaves that enhance Thai soups, curries, stir-fries and more!
<i>Genovese Amethyst Purple</i>	The only purple Genovese-type basil. Large, 2-3", thick, turned-down leaves. This stunning basil is nearly black in color.
<i>Genovese Dolce Fresca</i>	AAS award in 2015. The dark green, glossy leaves are sweet and fragrant for delicious pesto or caprese.
<i>Genovese Italian Classico</i>	This sweet Genovese basil is our most popular variety. It is the same strain that made pesto famous worldwide.
<i>Genovese Pesto</i>	Powerful Genovese type selected for the strongest aroma and flavor.
<i>Italian Large Leaf</i>	Pesto variety that has huge 4" leaves. Compared to Genovese types, the scent and taste are sweeter and less clove like.
<i>Italian Sweet</i>	Classic basil appearance, with glossy, dark green, 3" leaves. Spicy and sweet, with a wonderful clove-anise aroma.
<i>Italian Sweet Napoletano</i>	Pesto variety with huge, frilly, "lettuce leaves". Spicy traditional basil flavor.
<i>Mexican Cinnamon</i>	Flavor is of intense basil with notes of mint, anise, and cinnamon. Plants have distinctive violet stems, and edible lavender blooms.
<i>Mrs. Burn's Lemon</i>	Sweet and tangy, very bright green 2 1/2" long leaves with white blooms that make it both attractive and flavorful.

<b>Kohlrabi - full sun</b>	
<i>Azur Star</i>	Highly regarded variety from Europe, considered to be one of the finest. It is the earliest blue/purple leaved Kohlrabi.
<i>Quick Star</i>	Hybrid variety with an early-maturity and uniform harvests. Unlike some varieties Quickstar bulbs do not get pithy or tough.
<b>Leek - full sun</b>	
<i>King Richard</i>	Beautiful full-sized leeks. In favorable soil and culture, the white shanks are over a foot long to the first leaf.
<i>Tadorna</i>	The most reliable OP fall leek. Produces a medium-length white shank and contrasting, very dark blue-green foliage.
<b>Lettuce - full sun/filtered light</b>	
<i>Alfresco Mix</i>	Cut & come again. Mediterranean mix with red and green leaf lettuces, arugula, endive, and radicchio.
<i>Bistro Blend</i>	Cut & come again. Well flavored blend with many leaf shapes, textures and colors.
<i>City Garden Mix</i>	Cut & come again. Traditional mix of red and green leaf lettuces that is easy on the palate.
<i>Red Butter</i>	Head type. Triple red heads have a round base with open leaves. Attractive red to green color transition. Delicate, buttery flavor.
<i>Red Romaine</i>	Head type. Gourmet variety used as a tangy colorful addition to salads. Color develops best in cool weather
<i>Romaine</i>	Head type. Very attractive, uniform plants that are extra dark green. Dense heads can be harvested at a mini size or slightly larger.
<i>Romaine Tricolor Mix</i>	Head type. Includes red, bronze and green lettuces. Best for cool season. Can tolerate a slight frost.
<i>Summer Picnic</i>	Cut & come again. Mix of red and green heat tolerant lettuces makes a delicious and nutritious salad.
<b>Melon - full sun/filtered light</b>	
<i>Ambrosia</i>	Cantaloupe. Ambrosia lives up to its name with luscious salmon-red flesh and a juicy, tender, extra-sweet flavor.
<i>Early Honeymoon</i>	Honeydew. Brilliant gold rind and delicious green flesh. Two weeks earlier than regular Honeydew and excellent yields.
<i>Honey Orange F1</i>	Honeydew. Sweet, pale salmon-orange flesh is delicious to the rind. Early maturity and tolerant to cool conditions.
<i>Kajari</i>	The fruit is a brilliant copper-red and is striped in green and cream. The pale green flesh is sweet, aromatic and slightly musky in taste.
<i>Rajasthan Honey</i>	These melons thrive in the hot and dry conditions of western India. The flesh is sweet, soft & silky with a classic muskmelon taste.
<i>Sakata's Sweet</i>	Asian melon grown in China and Japan for thousands of years. Golden-yellow softball-sized fruits are very sweet and crisp.
<i>Sugar Cube</i>	Sugar Cube lives up to its name with intensely sweet flavor. Deep-orange, aromatic flesh perfect for single servings.
<b>Mustard Greens - full sun/filtered light</b>	
<i>Garnet Giant</i>	Darkest red mustard, the leaves are completely maroon. Best used in baby leaf form.
<i>Osaka Giant</i>	Cupped leaves with emerald green color and a purple tinge that becomes more intense as leaves mature.
<i>Southern Curled Giant</i>	Leafy large green leaves are frilled and prolific. Southern Giant has an excellent flavor packed full of vitamins A, B, and C!
<b>Okra - full sun, plant outside once temps are 60+</b>	
<i>Clemson Spineless</i>	The grooved, straight pods reach 7 to 9 inches long, with a full-bodied flavor okra lovers find utterly delectable.
<i>Jing Orange</i>	Lovely pods are a deep reddish-orange and are quite colorful. This Chinese variety produces lots of flavorful 6-8-inch pods early,
<i>Jambalaya</i>	Handsome hollyhock-like flowers quickly followed by heavy yields of crunchy, dark green pods. Pick young & tender.
<b>Orach - full sun</b>	
<i>Ruby Red</i>	Purple-Red leaves with bright magenta underside. Striking color for micro greens and salad mixes. Flavor is similar to spinach.
<b>Onion - full sun</b>	
<i>Mexican Grilling</i>	A staple at Mexican Carne Asada barbecues, this onion has long, green leaves and a small, white bulb that taste great when grilled.
<i>Spanish White</i>	Large, globed shaped Onions are mild and sweet with a white skin. A medium to fair storage onion.
<i>Sweet Vidalia</i>	Famously grown in Georgia, these onions are known to be "so sweet you can eat them like an apple".
<b>Peas - full sun/filtered light</b>	
<i>Garden Premium Shelling</i>	This is the best tasting, early pea with 3" pods that average 7 very sweet, medium-sized peas per pod.
<i>Snow Pea Avalanche</i>	6 inch pods are sweet and tender. Semi-leafless 30 in. plants put more energy into producing pods, giving you higher yields.

# Vegetable Description/Information

<i>Snow Pea Mammoth Melting Sugar</i>	Sweet, sugary, and tender. Will resistant vines can grow 5' tall and bear heavy yields. Makes an excellent addition to stir fry.
<i>Snow Pea Snow Green Beauty</i>	Green pods are tender even harvested at their full size of up to 8 inches long. Vigorous plants are productive and can reach 6-8 feet tall.
<i>Sugar Snap Patio Pride</i>	Perfect variety for a container or small garden, the snap peas are delicious and tender and produce in just 40 days.
<i>Sugar Snap Super Sugar Snap</i>	An earlier, more disease resistant version of sugar snap, expect heavy yields on 5' supported vines.
<b>Pepper - Bell/Sweet - full sun</b>	
<i>Candy Apple</i>	An early sweet pepper from Germany. The fruits are beautifully red and ruffled, with thick walls.
<i>Candy Cane Chocolate Cherry</i>	Variiegated foliage stands out. As the plant matures, green fruit with a unique white stripe changes to chocolate and cherry red.
<i>Fresh Bites Orange</i>	Juicy, small, sweet peppers are tidy little potted plants that can be placed inside on a sunny windowsill or outside on a patio table.
<i>Golden Cal Wonder</i>	Medium large, blocky, 4-5" yellow bells with a wonderful sweet, fruity taste.
<i>Mini Chocolate Bell</i>	Family heirlooms from Lucina Cress, an Ohio Seed Saver's Exchange member who has grown these little seed peppers for years. She and her friends would stuff the peppers with cabbage, then can and pickle them in pint jars to sell at their church fundraiser each year. Short and stocky 16" plants produce sweet, 2" fruits with 2 to 3 lobes, excellent fresh flavor.
<i>Mini Red Bell</i>	
<i>Mini Yellow Bell</i>	
<i>Orange Sun</i>	Thick walls and very sweet flavor make this a wonderful addition to salads and stir fries.
<i>Padron</i>	From Spain, harvest fruits when they are just over 1" long. Sautee in olive oil to make your own tapas!
<i>Red Knight</i>	Big, heavy, 4 1/2" block peppers mature to red early in the season. Excellent disease resistance.
<i>Red Marconi</i>	Long tapered Italian peppers with thin walls, a crunchy texture. Plants flourish with fruits that are great for frying, stuffing, or sliced for salads.
<i>Romanian Rainbow</i>	Very early colorful fruits start out ivory, turn persimmon orange, then finally mature to red.
<i>Shishito</i>	This mini, sweet-hot, thin walled pepper is very popular in Japan. Use in tempura, yakitori, or stir-fries.
<i>The Big Early</i>	So incredibly big, chefs use one fruit to make stuffed peppers for two. Beautiful sweet flavor.
<i>Yum Yum Mix</i>	Nearly seedless 2 1/2-in. peppers in a mix of tangerine, red & yellow. They keep well & maintain their crunch. Very sweet.
<b>Pepper - Hot/Spicy - full sun</b>	
<i>Aji Charapita</i>	Rare Peruvian peppers are 1/4" round & have a distinct fruity, citrus aroma and is equal in heat to a cayenne pepper.
<i>Anaheim</i>	This 7", moderately pungent fruit is deep green, but will turn red at full maturity. Excellent for drying.
<i>Calabrian</i>	Made famous by celebrity chef Bobby Flay, these small Italian red peppers are fruity & smokey with moderate to hot spice levels.
<i>Carolina Reaper</i>	At 200x hotter than a Jalapeno, this pepper doesn't just have heat, but an excellent fruity flavor, too.
<i>Casabella</i>	Small hot wax-type peppers usually picked yellow with a tart, crisp flavor and mild heat. Most often seen pickled.
<i>Cheyenne Orange</i>	Produces a heavy crop of 4 inch peppers that mature to bright orange. It's habit makes it a superb choice for pots.
<i>Chile de Arbol</i>	A Cayenne type of pepper with pointed pods, they mature to a dark red. 15 - 30,000 Scoville units.
<i>Chiltepin</i>	Growing wild throughout Mexico, this 1/4" little bomb is among the hottest at 100,000 Scoville units.
<i>Chipotle</i>	Great combination of earliness & yield. Let this pepper ripen to a bright red and smoke it on your BBQ. The result is delicious chipotle peppers.
<i>Cosmo</i>	Made for those with limited space, this is perfect for containers. Moderately hot peppers start purple and ripen to a deep red.
<i>Devil's Tongue</i>	The Devil's Tongue pepper is a spicy hot chili pepper with a sweet, fruity flavor. It is similar in heat to the habanero & ripens to a bright yellow.
<i>Fresno</i>	Common to the southwest, these are moderately hot peppers that work well in salsa or guacamole.
<i>Ghost (Bhut jolokia)</i>	Legendary variety, one of the world's hottest peppers, if not the hottest, with readings in excess of 1,000,000 Scoville units!
<i>Ghost Chocolate</i>	Like it's green cousin it is intensely fiery. The rich dark color seems to add sweeter undertones with a great smokey flavor.
<i>Gong Bao</i>	The more common name is Kung Pao, these slender thin-walled peppers turn from green to red & can be eaten fresh or dried.
<i>Guajillo</i>	These chili peppers are moderately hot, smooth, shiny, and typically reddish-brown in color. Old Mexican variety.
<i>Habanero</i>	100 times hotter than a Jalapeno. It produces wrinkled, tapered little fruit that turn from green to orange. Bears very well in hot weather.
<i>Habanero Chocolate</i>	Like it's orange brother, it produces wrinkled, tapered little fruit but this turns from green to chocolate brown. Bears very well in hot weather.
<i>Hatch Green Chile</i>	The perfect pepper for chiles rellenos, grilling or stuffing, it delivers a perfect medium heat. Widely grown in the Hatch Valley, New Mexico.
<i>Italian Roaster</i>	Whether on top of a burger, or grilled with Italian sausage, this one has just enough flavor & spice.
<i>Jalapeno</i>	Fiery, thick-walled peppers are dark green at first, then turn red. Good for pickling & Tex-Mex dishes.
<i>Jalapeno Purple</i>	Plants produce showy lavender flowers followed by a deluge of peppers that emerge green & mature to a dark purple.
<i>Jalapeno Sweet Poppers</i>	No-heat jalapeños give you all the flavor without the burn! These peppers are earlier to fruit and produce high yields.
<i>Jimmy Nardello</i>	Heirloom from Ruoti in Southern Italy, this long, thin-skinned frying pepper dries easily and has such a rich flavor.
<i>Manzano Orange</i>	Apple shaped pod has thick flesh & a sweet citrusy flavor. Unlike most chiles it prefers cooler weather & partial shade in warmer climates.
<i>Marchant Italian Pickling</i>	Long, waxy-yellow fruit that ripen to a classic orange-red. Usually harvested under-ripe when still green/yellow and pickled.
<i>Penis</i>	It is known for its striking resemblance to the male genitalia. Crunchy with a delicious sweet and fruity flavor with mild heat.
<i>Poblano</i>	An extremely popular Mexican pepper. The pods typically grow 4" long, are dark green & ripen to dark red or brown.
<i>Santa Fe Grande</i>	Approximately 5 inches long and ripen from greenish-yellow, to orange-yellow to red. Heat ranges from mild to moderate.
<i>Scotch Bonnet</i>	Originally from the Caribbean, where it is widely cultivated. Intensely hot, the flavor is fruity and bright with a hint of sweetness.
<i>Serrano</i>	Peppers are fleshy & meaty with the flavor so popular in Mexican cuisine.
<i>Sport</i>	The name says it all. These are the only official pepper used for the famous dogs of the windy city.
<i>Sriracha</i>	Dark green fruits are uniform with shiny, smooth skin and thick walls that ripen red. Flavor is mildly hot, but not overpowering.
<i>Thai Hot</i>	Originally from Thailand, peppers are thin fleshed, short and extremely hot. Used mostly in Thai soups.
<i>Trinidad Scorpion</i>	Wrinkled, lantern-shaped fruit ripens to a searing red-orange color that matches it's heat. Slightly hotter than the Ghost pepper.
<b>Perilla - shade to partial sun</b>	
<i>Korean Kkaebip</i>	Korean specialty. The leaves are bright green on top and light purple underneath. Unique flavor somewhere between mint and basil.
<b>Pumpkin - full sun</b>	
<i>Cinderella</i>	Medium to large in size, averaging 13-15" in diameter & weighing 15-35 lbs. A round but flattened shape with deep ribs.
<i>Dill's Atlantic Giant</i>	This is THE contest pumpkin. Vines require ample space and easily produce 250 pound fruits.
<i>Flat Stacker</i>	A classic flat, pure white beauty. This unique 15-25 lb. pumpkin is a must-have for fall displays.
<i>Jack be Little</i>	These charming little orange pumpkins are 3-4 inches across, somewhat flattened and ribbed, with small, strong stems.
<i>Jack O'Lantern</i>	A Halloween classic. It produces a 12-18" medium sized pumpkin, excellent for carving and cooking.
<i>Jarrahdale</i>	Medium to large, avg. 12-18 lb., drum-shaped fruit with heavy, rounded ribs and slate-gray skin. Sweet, thick, orange flesh.
<i>Marina di Chioggia</i>	This Italian seaside bumpy squash with blistered skin avg. 6-12 lbs. and make a wild, yet subdued ornamental statement for fall.
<i>Musquee de Provence</i>	These gorgeous, big, flat pumpkins are shaped like large wheels of cheese and are heavily lobed and ribbed with a beautiful rich, brown color.
<i>Queensland Blue</i>	This dark blue-green ribbed pumpkin-like squash produces 8 - 10 lb. fruits with very thick orange meaty sweet flesh that is excellent for cooking.
<b>Radicchio - full sun</b>	
<i>Bel Fiore</i>	Football shaped heads are green with white ribs and beautifully speckled with purple markings. Mild flavor.
<i>Fiero</i>	Deep maroon, football shaped heads with contrasting, white ribs.
<i>Leonardo</i>	Round, purple heads with white ribs. Chioggia type with high bolt resistance.
<i>Pink</i>	A loose heading radicchio with a vivid pink color and subtle pink markings. The color is best achieved when it matures in cool weather.
<b>Radish - full sun</b>	
<i>Crunchy King</i>	Produces blemish-free red spheres with even maturity. It also holds extra-long in the garden for a longer harvest window.
<i>Daikon Mini Mak</i>	This mini Korean radish has an authentic sweet and mildly spicy flavor perfect for pickling and eating fresh.
<i>Easter Egg Mix</i>	A mix of red, white, rose pink, purple, and red/white bi-color radishes best grown in the cooler periods of spring & fall.
<i>Japanese Wasabi</i>	The unmistakably pungent flavor of this bright green radish can clear the sinuses and invigorate the palate.
<i>Watermelon</i>	Large 3-3 1/2" round roots that are creamy-white outside, with a vivid burst of watermelon-rose color at the center.
<b>Rhubarb - full sun</b>	
<i>Victorian</i>	The best cooking rhubarb, with a sweet & mild flavor. Produces prolific, green with red blush stalks.

# Vegetable Description/Information

## Scallion - full sun

<i>Deep Purple</i>	Beautiful purple red, slender stems with long green tops. Mild spicy flavor. Will overwinter for Spring harvest.
<i>Evergreen Bunching</i>	White stems with long green tops. Exceptionally cold hardy, but overwintering not recommended.
<i>Red Bunching</i>	Brilliant blood red stems and long green tops. Distinctive flavor.
<i>Standard</i>	Boldly flavored and best harvested Spring through Fall.
<i>Tokyo Long</i>	Long upright stems with dark green tops. Tender, tasty & heat tolerant.

## Spinach - full sun/filtered light

<i>All Season</i>	Vigorous, thick smooth slightly savoyed leaf. All weather tolerant with a sweet juicy taste. Will benefit from afternoon shade in the summer.
<i>Baby Leaf</i>	Tender, flavorful leaves best picked young. Good year round weather tolerance. Will benefit from afternoon shade in the summer.
<i>New Zealand</i>	Not a true spinach, but unlike common spinach, this variety takes the heat and keeps producing all summer. Tasty, but not frost hardy.
<i>Red Malabar</i>	Not a true spinach, but a beautiful, heat loving Asian vine. Red stems & delicious, succulent leaves are great in salads & stir-fries.

## Squash (summer) - full sun

<i>Crookneck</i>	An American institution, dating back to the early 1800s. Bush plants heavily produce yellow summer squash. Best harvested young.
<i>Zucchini Anton</i>	Very attractive intense dark green skin and light green flesh. Uniform cylindrical shape, long shelf-life and small blossom scar.
<i>Zucchini Black Beauty</i>	Darker green skin contains higher levels of lutein, a highly effective antioxidant. Glossy, cylindrical fruit.
<i>Zucchini Bush Baby</i>	Bush Baby's fruits are true miniatures and ready to harvest at 4-6". Fruits are medium dark green with stripes.
<i>Zucchini Golden</i>	Fruits are a beautiful, bright golden-yellow, with a low frequency of fruits with green tips.
<i>Zucchini Italian Rampicante</i>	Italian heirloom. Long slender 15-inch fruit, one of the best eating summer squash: very tender, mild & sweet.

## Squash (Patty Pan types) - full sun

<i>Patty Pan Benning's Green Tint</i>	American heirloom from the early 1900s. Its pale green flesh matures to creamy white with an excellent flavor.
<i>Patty Pan Custard</i>	Clear lemon yellow fruit on productive bush plants yield over a long season. Recommended for cooler climates.
<i>Patty Pan Flying Saucer</i>	A classic, shiny green, patty-pan type with the exceptional earliness of a hybrid as a bonus.
<i>Patty Pan G-Star</i>	Fruits are dark green, heavily ribbed and have a great flavor. The smaller this prolific yielder is picked, the shinier the squash will be.
<i>Patty Pan Lemon Sun</i>	Vigorous and strong bush plant. Yellow, scalloped fruit are sweet & tender. Harvest from baby with the flower attached to full size.
<i>Patty Pan Sunburst</i>	Attractive, whether picked tiny with the blossom still attached, or teacup-size. Vigorous plants pump out butter-yellow scalloped fruits.

## Squash (winter) - full sun

<i>Autumn Delight</i>	Produces high yields of uniform acorn squash with rich, dark-green skin. Strong powdery mildew tolerance. Semibush plants.
<i>Buttercup</i>	Characterized by its 6 1/2" diameter fruit. The skin is dark green with silvery white stripes, and the flesh is orange and dry.
<i>Butternut Waltham</i>	Standard butternut squash with light tan-colored fruits averaging 4-5 lb. Flesh is smooth-textured and has a unique sweet flavor.
<i>Delicata</i>	Among the very best in eating quality. Oval fruit with ivory skin & contrasting dark green ribs.
<i>Spaghetti</i>	An American strain of this popular Japanese squash, with stringy flesh that is used like spaghetti. Introduced to America before 1920.
<i>Table Ace</i>	The medium 2 1/2 lb., acorn squash have a nice "black-green" color. The taste is good, nutty, and moderately sweet.

## Strawberry - full sun

<i>Camarrassa</i>	Early-season short day cultivar. Fruit is larger and firmer than Chandler. Productive, has good appearance & flavor.
<i>Chandler</i>	Fruit are very large, medium red, glossy finish, with a large conical to long wedge shaped. High yields.
<i>Eversweet</i>	Bred for hot southern climates. It is a day neutral, everbearing type that will give an endless supply of sweet fruit.
<i>Farmer's Market</i>	The strawberry stand strawberry! Medium sized fruit with excellent flavor, very heavy producer. Day Neutral, cold hardy.
<i>Fort Laramie</i>	Enjoy one crop in spring and another in late summer or fall. Produces flowers, berries & runners simultaneously.
<i>Ozark Beauty</i>	Everbearing produces wave after wave of sweet, delicious, scarlet-red strawberries. Hardy & vigorous.
<i>Quinault</i>	Everbearing variety produces large fruit on unrooted runners from June till frost. Very good container plant.

## Sunflower - full sun

<i>Mongolian Giant</i>	Enormous, yellow flower heads are 18 inches wide & up to 14 feet tall. Produces bushels of edible, huge, 1 1/2 inch long seeds.
<i>Titan</i>	Massive, record-setting flower heads have reached a fantastic 24" on 12' stalks. Seeds are very large and great for roasting.

## Swiss Chard - full sun

<i>Five Color</i>	A beautiful chard, its colors are brilliant (pink, yellow, orange, red, and white). Very mild, ornamental, and tasty.
<i>Ruby Red</i>	The deep crimson stalks and veins beautifully contrast with its dark green heavily crumpled large leaves.

## Tomatillo - full sun

<i>Aunt Molly's Ground Cherry</i>	Polish heirloom variety has an unusually fine flavor—very sweet with a nice hint of tartness.
<i>Cisneros</i>	3" Apple-green fruit have a papery husk that splits open as tomatillos mature and turn yellow-green.
<i>De Milpa</i>	This 1 1/2" fruit is green with a purple blush and usually grows unattended in family cornfields.
<i>Purple</i>	Rare heirloom variety. Fruit is very sweet, great grilled, & makes an attractive purple salsa.
<i>Verde Puebla</i>	This 2" fruit is used to make traditional Mexican green salsa, these plants will produce continuously.

## TOMATOES - SEE TOMATOES on their own page(s).

## Turnip - full sun

<i>Hakurei</i>	White salad turnip. Eaten raw, the flavor is sweet and fruity, and the texture is crisp and tender.
<i>Scarlet Queen</i>	These slightly flattened salad turnips have sweet, crisp white flesh and spicy red skin.

## Watercress - full sun

<i>Watercress</i>	Mildly spicy gourmet green for sandwiches, salads, and soup.
-------------------	--

## Watermelon - full sun

<i>Crimson Sweet</i>	Dark and light green-striped, 10" x 12", blocky, oval fruits weigh in at 15-25 lb. Sweet red flesh. 85 Days
<i>Mini Love</i>	Personal-sized, distinctive, bright green rind with dark green stripes and dense, bright red flesh. Deliciously sweet.
<i>Sugar Baby</i>	Popular icebox-sized dark green, 6-10 lb. fruit have sweet, deep red flesh.

# TOMATO INFORMATION/REFERENCE/DETAIL

Name	Fruit Color/Interest	Fruit Size	DRG	type	H	Comments
Amy's Sugar Gem	red	2 oz		I	71	HUGE yields of deliciously sweet, well balanced fruit with light gold sparkles on the skin.

## DRG - Disease Resistance Guide

<b>A</b> = Alternaria	<b>LB</b> = Late blight	<b>T</b> = Tobacco mosaic virus	<b>TSWV</b> = Tomato spotted wilt virus
<b>LM</b> = Leaf Mold	<b>F</b> = Fusarium	<b>N</b> = Nematodes	<b>V</b> = Verticillium wilt

**H**- Days to Harvest refers to the number of days that your crop will be ready after transplant. This number is a general figure and can vary depending on time of year, fertility, etc.

**(D) DETERMINATE** plants generally do not grow after bud set & usually the crop comes on all at once.

**(I) INDETERMINATE** plants tend to keep growing and producing after initial bud set, thus giving their fruit a little at a time.

Super Fantastic	red	10 oz	VFN	I	70	Delicious beefsteak-type tomatoes that are solid, meaty, and smooth skinned.
Super Sweet 100	scarlet red	1inch	VFN	I	65	Long, branched clusters of deliciously sweet tomatoes high in sugar and vitamin C.
Surender's Indian Curry	red	2inch		D	70	Slightly flattened fruit that is juicy and more acidic than sweet. A very good choice for a patio garden.
Sweet Baby Girl	dark red	1inch	T	I	65	Compact plants bear incredible harvest of sweet flavored, dark red fruit on long clusters.
Tazmanian Chocolate	mahogany red	8-12 oz		D	70	A cross between New Big Dwarf and Paul Robeson. Great for small spaces and containers.
Thai Pink Egg	pink	1 oz		I	74	Pink fruits are sweet and a great choice for container gardens or if limited on space. Does well in heat & humidity.
